Seven years of production mobile development, most of it on enterprise-scale products. Delivered Flutter and native (Kotlin / Swift) work for ALDI and Funke Media in Germany and for AXA and İş Bankası in Türkiye, and working both sides means going down into a native package whenever Flutter alone falls short. Shipped features across **26 applications** running from a single shared codebase at Funke Media, built ALDI's Flutter Web admin panel end to end as **sole developer**, and led a **6-person Android team** at Sporyap. Writes backend and APIs in PHP and Python alongside mobile, with a hardware background in industrial IoT and PLC communication for products that talk to machines. Used to owning a product from requirements analysis through architecture and testing to store release. Available immediately.

Core Competencies

Cross-Platform: **Flutter / Dart** (mobile + web), Riverpod, Bloc/Cubit, Provider, Freezed / json_serializable, React Native

Native Android: **Kotlin**, Java, Jetpack Compose, Coroutines/Flow, Hilt/Dagger, Retrofit / OkHttp, MVVM / Clean Architecture

iOS: Swift, native package development, Flutter platform integration

Backend: PHP, Python, C#, REST APIs, Firebase, authentication & authorization

Payments: Google Play Billing, App Store In-App Purchase, Stripe, virtual POS integrations

Quality & Ops: CI/CD, Docker, unit / widget / integration testing, store release management

Industrial: IoT systems, PLC communication, sensor systems, data acquisition

Languages: Turkish (native), English (professional working proficiency)

Professional Experience

Arneca Yazılım **Türkiye / Germany**
Mobile Developer (Flutter / Android) *Feb 2023 - Jul 2026*

- Built the **ALDI Sports** mobile application in Flutter, and developed native Android and iOS packages with their Flutter integrations.
- Delivered the **ALDI Web Admin Panel** end to end in Flutter Web as the sole developer.
- Developed, maintained and shipped features across **26 distinct media applications** managed from a shared codebase on the Funke Media platform.
- Migrated the **AXA Switch** native application to Flutter.
- Built new modules and architectural improvements in Kotlin for **İş Bankası**'s İşim and İşim Kolay applications.
- Set up the Flutter architecture and built modules for **Skulp**, a platform matching athletes with coaches.
- Delivered additional Swift development on the **AXA FVFV** native iOS application.
- Owned testing, performance optimisation, store release and maintenance cycles.

MeTech **Türkiye**
Senior Android Developer *Dec 2022 - Feb 2023*

- Developed enterprise Android applications in Kotlin.
- Delivered new features and maintained existing enterprise applications.

Sporyap **Türkiye**
Senior Android Developer *Dec 2021 - Dec 2022*

- **Led a 6-person Android development team**, owning technical coordination across the group.
- Developed the Sporyap application: new features, defect analysis and technical improvements.

Self-employed **Türkiye / Remote**
Freelance Software Developer *Feb 2019 - Dec 2022*

- Run in parallel with full-time employment from Dec 2021 onward.
- Built mobile applications in Flutter, Android (Java/Kotlin), Swift and React Native; backend and APIs in PHP and C#.
- Delivered projects for retail, food-delivery and bidding platforms, plus QR code, IoT device management, meter reading, marketplace and restaurant POS systems.
- Integrated RESTful APIs, authentication/authorization, payment, shipping, notification and third-party services.

Independent Projects

Review App: **Founder & Full Stack Developer.** Customer feedback management SaaS for businesses; Flutter mobile app, PHP backend and web platform across Android, iOS and web.

Restaurant OMS: Real-time order management system with customer, business and administration panels. Flutter, JavaScript, PHP.

Production MS: Mobile and web system digitising factory production and inventory tracking processes.

Education

Istanbul University **Türkiye**
Management Information Systems *2020-2024*
Information systems, software, business and technology.

Anadolu University **Türkiye**
Business Administration *2016-2020*
Business administration, management, economics.

Kocaeli University **Türkiye**
Aircraft Electrical & Electronics *2013-2017*
Aircraft electrical systems and electronics.

Domain Expertise

Enterprise Mobile: Retail, media, insurance and banking applications at scale

Payments: İş Bankası, AXA; in-app purchase, Stripe and virtual POS integrations

Industrial & IoT: PLC communication, sensor systems, machine automation, data acquisition

Integration: REST APIs, e-commerce, CRM, inventory management, QR code systems
